Notes to Editors:

Alien Metals Ltd. is a mining exploration and development Company listed on the AIM market of the London Stock Exchange (LSE: UFO).

The Company focuses on delivering a profitable, long-life direct shipping iron ore operation based out of the Pilbara in Western Australia. In 2019, the Company acquired 51% of the Brockman and Hancock Ranges high-grade (Direct Shipping Ore) iron ore projects and, in December 2022, moved to 90% legal and beneficial ownership. The Company also acquired 100% of the Vivash Gorge Iron Ore project in the west Pilbara in July 2022.

The Company owns 100% of the Elizabeth Hill Silver Project, which consists of the Elizabeth Hill Historic Mining Lease and the 115km² exploration tenement around the mine.

Alien also holds a 100% interest in the Munni Munni Platinum Group Metals and Gold Project in the West Pilbara, Western Australia, one of Australia's major underexplored PGE and base metals projects. Munni Munni holds a historic deposit containing 2.2Moz 4E PGM: Palladium, Platinum, Gold, Rhodium.

Recently, the Company acquired 100% of the Western Hancock Tenement. The new tenement adjoins the Company's existing Hancock tenement, which contains a significant direct shipping iron ore deposit, giving the entire Hancock project direct access to the Great Northern Highway.
