Elizabeth Hill Tailings Project Update

Alien Metals Ltd (LSE AIM:UFO), a minerals exploration and development company, would like to advise that the exclusivity agreement between the Company and the owner of the Elizabeth Hill silver tailings project ("the Project"), located on the Elizabeth Hill Silver Project site, as announced on 10 March 2021, has now come to an end.

Bill Brodie Good, CEO & Technical Director of Alien Metals, commented:

"With a number of key project developments and priority technical work in the pipeline, we have decided to suspend our current work and review of the Project. We still see potential in the silver tailings, and may revisit the Project in due course when other projects will allow for this."

– Ends –

Notes to Editors

Alien Metals Ltd is a mining exploration and development company listed on AIM of the London Stock Exchange (LSE: UFO). The Company's focus is on precious and base metal commodities, with its operations located in proven mining jurisdictions and it has embarked upon an acquisition-led strategy headed by a high-quality geological team to build a strong portfolio of diversified assets.

In 2019, the company acquired 51% of the Brockman and Hancock Ranges high-grade (Direct Shipping Ore) iron ore projects and increased its holding to 90% in May 2021 while in 2020 acquired 100% of the Elizabeth Hill Silver Project, which consists of the Elizabeth Hill Historic Silver Mine Mining Lease and the surrounding Munni Munni North Exploration Tenement. The Australian projects are located in the world-renowned Pilbara region of Western Australia.

The Company also holds two silver projects, San Celso and Los Santos, located in Zacatecas State, Mexico's largest silver producing state, which produced over 190m oz of silver in 2018 alone, accounting for 45% of the total silver production of Mexico for that year. The Company holds a Copper Gold project in the same region, Donovan 2.

The company was also awarded an Exploration Licence in Greenland in late 2020, which surrounds the world class Citronen Zinc-Lead deposit.

In addition to progressing and developing its portfolio of assets and following its strategic review of its portfolio of silver and precious metals projects, Alien Metals has identified priority exploration targets within all of its projects which it is working to advance systematically.
